MD TASRIF AHMED MUNNA

MERN Stack Developer

GitHub

CAREER OBJECTIVE

Passionate and self-taught MERN Stack Developer with expertise in building scalable web applications using the MERN stack, Next.js, PostgreSQL, and Prisma. Driven to write clean, efficient code and eager to contribute to dynamic software engineering teams while continuously expanding my technical capabilities.

SKILLS

Frontend Technologies: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js

Backend & Databases: Node.js, Express.js, MongoDB, PostgreSQL, Prisma ORM

Tools & Concepts: Git, GitHub, REST APIs, WebSockets (Socket.IO), Firebase Auth, Vercel, Render

Interpersonal Skills: Problem-Solving, Self-Motivation, Continuous Learning, Team Collaboration

PROJECTS

FixItNow - Home Service Platform [Live Site | Client Repository | Server Repository]

A full-stack web application connecting users with local technicians for household repair and maintenance services.

- **Dual User Roles:** Allows registration as either a client seeking services or a technician offering expertise.
- **Service Booking System:** Enables seamless browsing, hiring, and scheduling of technicians for specific maintenance tasks.
- **Role-Based Access Control:** Secure dashboard routing for users and service providers to manage bookings and profiles.
- **Responsive UI:** Clean and intuitive interface optimized across desktop and mobile platforms.

ChatApp - Real-Time Messaging Application [Live Site | GitHub Repository]

A real-time messaging web platform engineered for instant, reliable communication between users.

- **Instant Messaging:** Built with Socket.IO for real-time, low-latency communication and message delivery.
- **User Authentication:** Secure user sign-up, login, and protected session management.
- **Active Status Tracking:** Real-time user status updates indicating online/offline presence.
- **Interactive Chat UI:** Responsive, modern interface for seamless conversation threads.
